## **1. Purpose of Report**

The purpose of this report is to provide Members with an update on the progression of the resumption of services in Sport & Wellbeing as per the timeframe set out in the August report presented on 4<sup>th</sup> August to Full Council

The option adopted at Full Council was the 'Reduced Service Resumption' with the reopening of all Major/Minor Leisure Centres and Community Centres from the 17<sup>th</sup> August 2020.

This option aligns services with affordability and maximises the permanent staff complement across all facilities, in conjunction with reduced opening hours for activities which best reflect peak demand periods, and compliance with current Covid-19 restrictions.

This paper provides the most up to date position for the following facilities;

- Major Leisure Centres;
- Minor Leisure Centres;
- 18 Community Centres;
- Outdoor facilities

## **2. Background**

Council closed Leisure/Sport/Community Centres on Tuesday 17<sup>th</sup> March. This was followed shortly thereafter with "lockdown" across the region and the focus moving towards Community Support initiatives.

As the country started to move out of the full lockdown the NI Executive published its Coronavirus Recovery Plan which set out guidance on the phasing of a post Covid recovery.

Linked to this plan was the guidance issued by Sport NI which set the framework to be followed by sporting organisations and by association local government and private sector sport & leisure facilities. That framework phased the return of sport and physical recreation under the following categories;

- Outdoor Recreation
- Water-sports
- Non-contact sports
- Contact sports (Lower risk)
- Contact sports (Higher risk)

### **Extract from "A Framework to guide progression towards a resumption of sport and physical recreation in Northern Ireland"**

As the lifting of Covid - 19 restrictions gathered momentum, the NI Executive announced that indoor gyms could reopen on the 10<sup>th</sup> July, with Leisure Centre's following on the 24<sup>th</sup> July (revised). No further specific guidance was issued by the NI Executive in relation to how these facilities can reopen, as such Council Officers considered various sources of advice:

- NI Executive/DfC, Guidance on the Safe Phased Return of Sport, Leisure and Recreation in Northern Ireland;
- UK Government/DCMS “Working Safely during Coronavirus: Providers of grassroots sport and gym/leisure facilities”;
- Sport NI “A Framework to guide progression towards a resumption of sport and physical activity in Northern Ireland”;
- UK Active “COVID-19 - A framework for the re-opening of gym, leisure centre and wider fitness industry during social distancing”;
- UK Active “COVID-19 Impact Report: The Fitness and Leisure Sector’s Path to Recovery”;
- CIMSPA – “Social distancing in the sport and physical activity sector”;
- CIMSPA – “Guidance on outdoor training and coaching in Northern Ireland”;
- EMD UK – “Guidance and Support for UK Group Exercise Instructors”; and
- QLM Health & Safety Industry Experts.

### 3. Service resumption

The following timetable highlights the programme for a safe return to sport & physical recreation plus community space.

Minor Leisure Centres	4	Week commencing 17th August subject to Departmental guidance (actual date following completion of H&S requirements - week commencing 24 <sup>th</sup> August).
Community Centres	4	Week commencing 24 <sup>th</sup> August to facilitate child care services.

## Indoor service resumption

The recovery phase for indoor facilities, in particular Major and Minor Leisure Centres, is seen as a short term interim measure requiring no permanent changes to structure or staffing requirements. The planning assumptions for next year are to be kept under review and Council advised accordingly.

As per the report presented in August, an exact timeframe cannot be projected for how each phase of the recovery plan for indoor services progresses. The timeframe between phases may be short, but will ultimately be driven by the lifting of restrictions (avoiding local 'lock downs' / possible second wave), governing body/club evidence of compliance and the facilities and staffing capacities to manage potential increased footfall and adhere to Covid-19 operating procedures.

Critically, management require the flexibility to increase or reduce the level of service according to local demands and facility constraints. The phased re-opening operates on differing timescales for each leisure centre, sports centre and community centre.

The Proposed Phased Recovery for indoor usage is summarised in the following Table:

FACILITIES	NO SERVICE	REDUCED SERVICE: 1 SEPTEMBER - 31 MARCH			FULL SERVICE

#### **4. Progress to date**

With reference to the above table, Phase 1 is complete and appropriate elements of Phase 2 have been opened / reinstated.

- Reception – open as above.
- Gym – booked sessions with limited numbers.
- Studio/classes – booked sessions with limited number, increased timetable. Return of exercise referral programme, subject to PHA guidance.
- Main & Minor Halls – repurposed of spaces for gyms and exercise classes, limited Club usage return.
- Dry Changing- remains closed.
- Main & Minor Pools- booked sessions for lane swimming, club usage and Family swim sessions. Swimming lessons currently being scoped subject to affordability and current or new Covid-19 restrictions.
- Health Suite – remains closed.
- Wet changing – quick change zone post swim (no showers).
- Soft play – remains closed.
- Café – remains closed.
- Community centres – child care provision and block bookings.
- Changing pavilions – toilet access only, no changing.
- Opening hours – as per August report, no plans to revise until confidence in the sector increases.

#### **5. Next Steps**

On-going reports will be presented to the L&D committee, to include a financial update following the production of Period 6 management accounts.

Given the growing concerns over the increase in level of Covid-19 infection and the potential for the reinstatement of tighter restrictions SWB awaits any further decisions taken at Executive level and the resulting implications for its service area before progressing any further through Phase 2 and 3 of the recovery plan.
