## 1.0 Background

- 1.1 The "Protocol for the Operation of the Planning Committee" sets out the requirement to provide monthly updates on the number of planning applications received and decided
- 1.2 The Northern Ireland Planning Monitoring Framework sets out the reporting arrangements to the Department of Infrastructure. DfI's Analysis, Statistics and Research Branch (ASRB) publishes the official statistics on a quarterly and annual basis. The Framework includes the three statutory planning indicators in addition to new non-statutory indicators.
- 1.3 This Monthly Statistical Report provides Members with unvalidated statistics in relation to how Council's Planning Department and Committee are performing against the Framework indicators.

## 2.0 Details

- 2.1 A list of planning applications received and decided by Causeway Coast and Glens Borough Council for February 2021 is available on the Council's website at the link below:

<https://www.causewaycoastandglens.gov.uk/live/planning/schedule-of-applications>

Please note that Pre-Application Discussions; Certificates of Lawful Development – Proposed or Existing; Discharge of Conditions and Non-Material Changes, have been excluded from the reports to correspond with official validated statistics published by DFI.

- 2.2 *Indicator 1: average processing time taken to determine major applications*  
*Statutory Target – major applications processed from date valid to decision or withdrawal within an average of 30 weeks*

Table 1 below details the number of Major planning applications received and decided, as well as the average processing times. Please note that these figures are unvalidated statistics. In comparison to the same period last year, the number of major applications received has decreased by 1 application and the number of major applications decided has decreased by 8. No Major applications issued in February. Taking account of restrictions relating to Covid-19 pandemic, average processing times are 9 weeks slower when compared to same period last year. Although this is significantly above the statutory indicator for major applications, focus continues to reduce the number of older major applications in the system which inevitably will have a negative impact on average processing times.

**Table 1 Indicator 1: Processing Major applications**

Statutory Target – local applications processed from date valid to decision or withdrawal within an average of 15 weeks

Table 2 below details the number of Local planning applications received and decided as well as the average processing times. Please note these figures are unvalidated statistics. In comparison to the same period last year, the number of applications received has increased by 13 applications and the number of decisions issued/withdrawn has decreased by 273 applications.

The restrictions imposed due to Covid-19 in Q1 and Q2 and the lack of resources to access the Planning Portal during that time are the main reasons for the drop in decisions issuing. With provision of resources to access Planning Portal remotely rolled out to staff by end August, decisions issuing increased to reflect the numbers for Q3 of last year. The number of local decisions issued in February was the highest since at least April 2016. Processing times are only 1 week slower than same period last year when operating in the normal working environment.

**2.4** *Indicator 3: proportion of enforcement cases progressed to the target conclusion within 39 weeks*

*Standard – 70% of all enforcement cases progressed to target conclusion within 39 weeks of receipt of complaint*

Table 3 below details the number of Enforcement cases opened and concluded as well as the percentage of cases concluded within the statutory target of 39 weeks. Please note these figures are unvalidated statistics. In comparison to the same period last year, the number of cases opened has decreased by 119 and the number of cases brought to conclusion has decreased by 92

The statutory target for concluding 70% of enforcement cases within 39 weeks has not been met by our Enforcement team with 68% of cases YTD concluded within the statutory target a decrease of 18.9% when compared to the same period last year. The length of time to bring these cases to target conclusion is due to the delays in site visits at the beginning of the pandemic restrictions and the knock-on effect that has had. Furthermore, focus for Q4 is to work to conclude older cases in the system which impacts on the conclusion target.

**2.5** *Indicator 4: percentage of applications determined under delegated powers*

Table 4 below details the total number of Local applications determined under delegated powers. Determined is taken as the date the decision issued and excludes withdrawn applications. DfI Development Management Practice Note 15 Councils Schemes of Delegation recommends that councils should aim to have 90-95% of applications dealt with under the scheme of delegation. To date 92.12% of applications determined were delegated under the scheme of delegation.
