1.0 Purpose of Report

The purpose of this report is to update members on the status of Castlerock Footbridge.

2.0 Background

In 1996 Coleraine Borough Council entered into a 10,000 year lease with NI Transport Holding Co. (NITHC) for the upkeep of the footbridge at Castlerock Railway Station. In 2017 Council approved the contract for the removal and assessment of the bridge with a view to ascertaining can it be restored and at what cost. Note NIEA has been actively involved in this decision process.

3.0 Update since last meeting

In January Council approved the further assessment of the bridge by Translink's consultant with cost to be shared by both parties and Council's share limited to a maximum of £10,000. This was done in an effort to provide Translink with the assurance that the bridge, with remedial work, is capable of being returned to its' location over the railway line. To date they had expressed concerns over its' long-term future.

Translink's consultant has now visited site and has carried out dimensional and condition checks. Subject to Translink agreeing their proposed assessment criteria it is hoped to have a preliminary report completed by the end of June. At this point Council will have some indication of the cost to repair and re-install the bridge. The final report could be available by the end of August.

4.0 Recommendation

Committee are asked to note the above information.
