Subject: Publication of Historic Environment Division's 'Conservation Principles: Guidance for the sustainable management of the historic environment in Northern Ireland'

Dear Consultee,

In 2021, DfC Historic Environment Division (HED) ran a public consultation (13 August – 08 October) on its draft 'Conservation Principles: Guidance for the sustainable management of the historic environment in Northern Ireland'.

Following this consultation and review, HED authored a companion document entitled 'Applying the Conservation Principles' and finalised the initial 'Conservation Principles' guidance document. These documents are now publicly available at [Conservation Principles | Department for Communities \(communities-ni.gov.uk\)](https://www.communities-ni.gov.uk/conservation-principles)

We would like to take this opportunity to thank you for your input to the consultation and trust you will find the guidance beneficial. We encourage you to share with anyone who has an interest in our historic environment.

Yours sincerely

Iain
