Assessment (DPIA)	DPIA Required and Completed:	<del>Yes/</del> No	Date:	

## 1.0 Background

De-rating is a central government policy which reduces the rating burden on a number of sectors, the most notable being manufacturing. The effect of this policy is that less rates are collected than would be expected applying the district and regional rate factors to a property's Net Annual Value (NAV) consequently there is a reduction in the income to Council from rates.

## 2.0 Detail

As Council has no operational influence in the application any such policy De-Rating grant is a statutory mechanism through which central government compensates the local Councils for any loss incurred as a result of the central policy. The grant is linked to the NAV's of those non-domestic properties where de-rating applies and is therefore affected by any increase in the District Rate factor as set by Council annually.

## 2.1 Quarterly Analysis

Land and Property services have provided us with the first quarterly projection for derating grant for 2023/24. This indicates a positive finalisation at the end of June 2023 of approximately £56k. The tables in the appendix to this report show some analysis of the de-rating grant for all Councils.
