Dear Denise,

Planning Consultations for Agricultural Developments

Following on from my letter dated 31 May 2023 notifying you that a decision had been taken by NIEA to temporarily pause the issuing of ammonia planning advice, I can now confirm that NIEA has considered this matter and the pause is being lifted.

NIEA will resume offering advice based on the extant ammonia standing advice/protocol and will endeavour to ensure that the cases impacted by the temporary pause are now addressed quickly.

Yours sincerely,

MARK HAMMOND

Head of Natural Environment Operations - NIEA

Sustainability at the heart of a living, working, active landscape valued by everyone.
