1.1 Background

Department for communities (DfC) requires Council to record and publish statistics regarding the payment of supplier invoices with specific reference to two distinct measures namely invoices paid within 10 working days and invoices paid within 30 calendar days.

1.2 Detail

These figures are published on a quarterly basis by DfC with Councils required to do likewise. The purpose of the statistics is to encourage Councils to support businesses especially those local and/or small businesses for whom cash flow is of vital importance to their continued survival. In addition, as part of Council's performance improvement plan for this year the payment of our suppliers has been identified as one of the performance improvement objectives with a target of 90% of suppliers being paid within 30 calendar days. The tables below detail Council's performance since April 2021 the latest data being for quarter 1 of 24/25 year, up to and including end of April 2024. This time last year we had the impact of implementing the new finance system but this year in the absence of a similar event we can see the continued improvement following that implementation.

1.3 Improvement Actions

The statistics will be continually to ensure the performance levels and where possible improved. Council's self-imposed target remains at 90% of invoices being paid within 30 days. During April 91.32% (April 90.72%) of invoices were paid within 30 days, a greatly improved starting position when compared to the figures from the previous year where 82.89% was recorded for the entirety of Q1 compared to 91.05% for the current year thus far. Combined performance for Q3 and Q4 of the previous year was 90.19%.
