Dear Sir/madam

As it has been established there is no 'need' for this expansion of the commercial premises intruding into the residential garden I would like to know why you find the applicants desire to increase their income more important than the health and well being of their neighbours.

As you are recommending acceptance to the planning committee it would seem that you have not properly considered the effect the delivery yard/car park would have on the health and well being of

[REDACTED]

In our letter of 21/10/2019 objecting to this proposal we informed you of health issues which would be exacerbated if the proposal were to be accepted. [REDACTED] use the rear garden for exercise as it is private. Having vehicle emissions so close would prevent me from doing this. Also the new building window overlooking and the height of the lorries overlooking the proposed 1.8 metre wall would ruin my privacy.

It is possible you overlooked this or maybe did not believe it [REDACTED]

[REDACTED]
