1.1 Background

Department for communities (DfC) requires Council to record and publish statistics regarding the payment of supplier invoices with specific reference to two distinct measures namely invoices paid within 10 working days and invoices paid within 30 calendar days.

1.2 Detail

These figures are published on a quarterly basis by DfC with Councils required to do likewise. The purpose of the statistics is to encourage Councils to support businesses especially those local and/or small businesses for whom cash flow is of vital importance to their continued survival. In addition as part of Council's performance improvement plan for this year the payment of our suppliers has been identified as one of the performance improvement objectives with a target of 90% of suppliers being paid within 30 calendar days. The tables below detail Council's performance since April 2020 the latest data being for quarter 3 of 23/24 year being up to and including end of October 2023. The implementation of the new Finance system at 1 April has had a negative impact on these statistics however we can see they have begun to recover in quarter 2, that improvement continuing during October and it is anticipated that this improvement will continue.

1.3 Improvement Actions

The statistics will continue to be reviewed over the coming months to ensure this decline continues to be reversed and performance should be improved to pre-implementation levels and better with the enhancements of the new system taking effect. During October 88.83% of invoices were paid within 30 days, the year to date figure now being 85.09%, a steady improvement from the 82.89% recorded in Q1.
