10:45am

LA01/2021/0588/F

App Type: Full Application

Proposal: Proposed replacement of existing timber fence and new perimeter fence to commercial yard consisting of 2m high polyester powder coated welded mesh fence and gates.

Present: Councillors Hunter and Nicholl, Official J Lundy. Apologies Ald Boyle

Comments:

The site was viewed from the Ballymaconnelly Road. The official pointed out the boundary of the site and the proposed 2m high fencing. Members asked about the use of the site. The official advised that there are no planning histories on the site though the former use was a petrol filling station. Members queried the status of the existing wall to the front of the site. The official clarified that this was to remain and the fence would be erected behind and then on top of the wall to a height in total of 2m. The comments were noted.
