Dear Mrs Dickson

I refer to your letter of 1 December 2020, received by email on 2 December, this in response to my request for information made on 16 September. This is an unacceptable delay, given that the information requested related to a planning application which is due for consideration at Council Planning Committee on 16 December. You state that 'the request for information was overlooked in error' when my request was received.

Aileen McGarry has provided two attachments of great complexity. The text of one demonstrates long delays by Case Officer in obtaining and following up on documentation from Statutory Agencies. She states 'a separate response will issue' on matters not already dealt with. No response has been received.

In the circumstances I request a deferral to January of the decision-making process, to give me time to evaluate and respond to the information you have provided.

Yours sincerely

Olga Harper
