I would like to lend my support for the objections lodged by Friend of Roe valley for the above planning application. I think they make a fair point. We should try to sustain the green areas in the town, where possible. We should have a gap between the country park lane and the new housing development. I although I am eager to see more housing in Limavady I am also keen to retain the limited green areas we have at present.

Kind Regards,  
Cllr Ashleen Schenning
