

# Labour Market Partnership Action Plan 22- 23

Our team has a plan to help local people find jobs.

We work with lots of groups so people can:

- find jobs
- learn new skills, or
- start working for themselves.

The groups include:

- Council staff,
- Schools and Colleges,
- The National Health Service,
- Careers Service,
- Enterprise Centres and
- Job Centre staff.

The plans help people to find a job or learn new skills.

We want lots of website visitors so people see how they can help.
