8.1 Branding

Following a decision of the Corporate Policy and Resources Committee it was agreed to bring a full report and presentation to Council for consideration by all Elected Members. The Head of Democratic and Customer Services presented the report previously circulated. Members were presented with two options.

A discussion ensued on the subject. Members voiced their opinions on the options presented. Concerns were raised in relation to the simplicity of the design and felt it could be more unique and dynamic. The Chief Executive clarified that Officers were asked, through Council agreement, to come forward with ideas. He further advised

that the process had been scrutinised by industry professionals and their opinion had been taken on board.

In response to a Member's question in relation to Branding being available in other languages, the Chief Executive advised a Bilingual Policy would be brought to Committee at a later date.

It was proposed by Alderman Hillis and seconded by Councillor Wilson: to approve Concept A.

Councillor Harding proposed Concept A but the initial design concept only, with the colours outlined as presented, to represent Council Sub Brands.

Following discussion, Alderman Hillis agreed to amend his proposal to include Councillor Harding's proposal, this was agreed by the seconder, Councillor Wilson.

Alderman Finlay requested that The Question Now Be Put.

On being put to the vote the Mayor declared the proposal carried with 30 Members voting for, 4 Members voting against and 1 Member abstaining.

It was **AGREED: that Council approve Branding Concept A, the initial design concept with the colours outlined as presented, to represent Council Sub Brands.**

9. LEGAL OPINION CALL IN FLAG FLYING

It was proposed by Councillor Wilson, seconded by Councillor McCorkell and **AGREED: to consider the item 'In-Committee'.**

The Chief Executive presented the legal opinion to Members and explained that he had sought further detail from the QC on the required next steps, specifically the requirement and the timing of any qualified majority vote and the interdependency of the decision with any associated equality impact assessment.

Councillor McGuigan suggested the Section 41b test had been met, and that qualified majority voting would be required. He added that he would be content to wait for the further guidance requested.

Alderman Hillis queried what legal costs to date. The Chief Executive agreed to obtain this information.

Councillor Clarke raised a point of clarity regarding receipt of the call-in notification received from the Sinn Féin party represented in Council and the email received from Councillor McGuigan. The Chief Executive advised that he did not have the details to hand and would come back to the Member. Councillor Clarke raised serious doubts about the validity of the call in and highlighted examples of errors in the legal opinion furnished. Councillor Clarke stated he had asked for precision/clarity and had not received it. The unapproved Draft Regulations, he stated, were not finalised by the Northern Ireland Assembly nor adopted by Council, therefore he deemed the Call In void.

It was proposed by Councillor Clarke: that Council note the opinion and the inaccuracies, irrelevancies, omissions and contradictions contained therein and carry on with the process agreed by Shadow Council at the beginning of the year with a view to enacting the Flag Policy agreed by Council on 28th July 2015.

Alderman Hickey welcomed the Legal Opinion, stating it was as expected.

Councillor McGuigan proposed an amendment: that if Councillor Clarke's proposal is agreed Council resolve out of committee and that there is a recorded vote at every stage, seconded by Councillor P McShane.

The Chief Executive advised that all comments relating to the matter would be taken on board and brought to the QC. The Chief Executive advised that it may be prudent to await further advice from the QC.

Alderman Hickey proposed a further amendment: to accept the Chief Executive's advice and to have a recorded vote.

Mr P Kingston, one of Council's solicitors, quoted from Section 41 of the Local Government Act 2014, 41 (ii), clarifying that a process had been put into motion, an opinion had been received, which in his view, at the present time, was not complete and until such time as he has received that, the matter could not come before the Council for re-consideration.

During questioning by Members Mr Kingston further clarified the reconsideration of the matter was the conclusion of the call in process, with the Council looking at the matter again and making a further decision by way of a vote whether by qualified majority vote or otherwise depending on the circumstances

Councillor Clarke repeated his proposal but conceded to withdraw his proposal on the basis that the Chief Executive needed time to come back to Council to answer questions regarding the process and timing, following receipt of further legal opinion.

The Chief Executive advised that he would furnish the legal opinion to Members before the next Council Meeting.

It was proposed by Alderman Finlay, seconded by Councillor Wilson and **AGREED: that the Notice of Motion would be referred to the next Corporate Policy and Resources Committee.**

17. REFUGEE CRISIS

NOTICE OF MOTION SUBMITTED BY COUNCILLOR QUIGLEY

It was **AGREED: to consider the Notice of Motion to address the Refugee Crisis and the item on the agenda for the Special Council Meeting that was to take place immediately after the Council meeting: *"With regard to the current refugee crisis that is taking place at this time in Europe, we want to look at any avenues as to which the Council can help in this awful situation which is currently taking place."*** (Dermot Nicholl, Sean McGlinchey, Cara McShane, Tony McCaul, Brenda Chivers, Philip McGuigan, Kieran Mulholland and Paudie McShane).

The following Notice of Motion was received from Councillor Quigley, of which due notice was given.

"We propose that this Council urgently responds to the current humanitarian crisis in the Middle East by taking up the challenge set by Citizens UK and the UNHRC in facilitating and supporting the resettlement of refugee families within our own community.

We further propose council lobbys (sic) the Executive to convene an urgent meeting in these exceptional circumstances in order to form a collective response to the current refugee crisis.”

Councillor Quigley read her Motion and spoke to it stating:

“The current refugee crisis has appalled each of us and left us heartbroken. I believe our community has an opportunity to do all they can to help these desperate and displaced families find a place of safety and welcome for as long as they may need it.

As such, I propose that our community the causeway coast and glens takes up the challenge set by Cltizens UK and the UNHRC in welcoming refugee families. Over the last few weeks I have been in discussion with church leaders, business people, those in education and Health Service backgrounds and we as a community of people believe that as we pledge our individual and combined skills, resources and support we can provide the necessary housing, financial support , healthcare and personal assistance that they so desperately need at this time of crisis . Only last week we hosted a representative from the Refugee Support Network based in London who gave us a comprehensive overview on what is involved in this process.

We as a people are famed for our hospitality and welcome right across the world. Our country is one with a proud legacy of providing sanctuary for those in need. In fact Coleraine Borough of Sanctuary was formed several years ago. A concept that seeks to serve and help the disenfranchised. The outpouring of generosity that the people of the Causeway Coast and Glens area have displayed reflects the strength of the public feeling about this crisis ... I am humbled and yet overwhelmed.

We are, in this time, in the face of the biggest movement of people since the Second World War with new images of these desperate people risking their lives to flee persecution every day.

Let us as a council stand with and encourage the people of the Causeway Coast and Glens who are moved with compassion and willing to join together to set up a sustainable framework to help address this urgent humanitarian crisis,”

Following her statement Councillor Quigley: **proposed the adoption of her Motion**, seconded by Councillor McGlinchey.

A discussion ensued on the subject and several Members expressed sympathy and shock at the plight of the refugees and voiced their opinions in support of the Motion or in support of Council adopting a different approach to the refugee crisis by supporting the work of international relief agencies and charities.

(During the course of the debate Councillor McGlinchey referred to his earlier remarks, during the adoption of the Environmental Services Committee minutes, stating that the remarks had not been against the Officer personally.)

Councillor Finlay read a statement as follows:

“The humanitarian crisis which continues to develop across Europe is one of the most heartbreaking, challenging and alarming scenarios in recent years – indeed, perhaps, since the Second World War. Our hearts go out to those who are fleeing from the conflict in Syria and other warzones across the world – they are fleeing persecution and are frantically seeking safety for themselves and their families. No-one can blame them for that. But the scale of the whole thing is mind-boggling and it seems that the Governments of Europe are unable to devise a strategy to deal with what is happening. And it is appalling that neighbouring 'oil states' have accepted no refugees when those nations are better placed to do so than others might be.

We in this Council want to do what we can to help, but we also need a strategy that's based on reality. There are many things we would like to do, but the best way to provide help and assistance to refugees is through the established charities. They have the expertise and the resources to put in place and deliver a plan – so we must liaise with them and encourage them in whatever way we can. I therefore support the amendment. We should provide help for refugees, not for economic migrants.

But I have to say something about the Sinn Fein motion. Whenever I hear Sinn Fein trying to take the high morale ground on this or any other matter, it makes my stomach turn. Sinn Fein have the knack of taking hypocrisy to new heights.

I recently heard Mary McAleese say that she had literally been a refugee when she was forced to flee over the border in the early days of the Troubles. But let's not forget that - for decades - the Provisional IRA created victims and refugees on a scale that stands out on its own. People were forced out of their homes in what can only be described as a sustained campaign of ethnic cleansing. 15,000 Protestants were forced from the cityside of Londonderry under the Provo policy of pursuing political and territorial gains through terrorism. Across Northern Ireland, people were taken from their homes and murdered and then secretly buried. Hundreds of people have been exiled from this island by republican terrorists. Many continue to live abroad, under threat of execution by terrorists should they return to this place. Countless numbers of people still carry the scars of terrorism. So, I must say I find it galling to listen to the moralizing of Sinn Fein on this current crisis.”

A Point of Order was raised in relation to the content of Alderman Finlay's statement following which, on the proposal of Alderman Hickey, seconded by Councillor Fitzpatrick it was AGREED: **to adjourn the Meeting for a ten minute recess at 10.20pm.**

* *The meeting reconvened at 10.30pm.*

When the meeting reconvened Councillor Quigley appealed to Council to vote in favour of her Motion.

Councillor McCandless proposed an amendment to the Motion, seconded by Alderman Finlay: **that this Council responds to the Humanitarian crisis in the Middle East by**

asking the public to donate to International Aid Agencies and Local Charities involved in providing relief for refugee crisis.

The Mayor put the proposal to the vote, 19 Members voted for, 13 Members voted against and 1 Member abstained. The Mayor declared the amended Motion carried.
