<b>Strategic Theme</b>	Resilient Healthy & Engaged Communities
<b>Outcome</b>	Compliance with Statutory Duty
<b>Lead Officer</b>	Head of Health & Built Environment
<b>Cost:</b> (If applicable)	Officer Time (TOIL)

### **Background**

District Councils have a statutory duty to enforce the provisions of The Sunbeds Act (Northern Ireland) 2011 which came into effect in May 2012. The Act prohibits the use/ sale and/or hire of sunbeds to persons under the age of 18. The aim of the legislation is to reduce the likelihood of the use/ sale and or hire of sunbeds being made to children.

Research on sun exposure has shown that sunburn in childhood can greatly increase the risk of developing skin cancer later in life. The Young Persons Behaviour and Attitudes Survey (YPBAS) 2013 revealed that 10% of young persons under the age of 16, although aware of the dangers of sunbeds, still used sunbeds and some of these were in commercial sunbed premises.

To raise awareness of the above legislation and assess compliance by sunbed premises across the Borough a test purchases exercise was conducted on 31<sup>st</sup> March 2017 by Council Environmental Health Officers.

### **Test Purchase Exercise Protocol**

The test purchase guideline document is based on the procedures used by Councils to carry out similar exercises in relation to tobacco products and volatile substances. All test purchase exercises are therefore carried out in accordance with Local Government Regulation (formerly LACORS) "Code of Best Practice" on test purchasing as endorsed by the Home Office. The test purchase involved sending a young person under 18 years of age, on this occasion a 16 year old child, into a sunbed premises to ask to buy a sunbed session.

Council's Environmental Health Officers have been working with sunbed premises in the Borough since the legislation was introduced to make them all aware of the new

legislation and its implications for them. This included personal visits, written information and prevention visits to the premises.

All sunbed premises were written to prior to the test exercise taking place reminding them of their legal responsibilities with guidance on how to prevent a sale to an underage child. Within said letter the sunbed premises owner was also informed that a test purchase exercise was going to be carried out. This letter was hand delivered to all premises during further advisory visits during February 2016.

### **Outcome**

The test purchase exercise was carried out across the Borough on the evening of Friday 31<sup>st</sup> March 2017. A total of 8 premises were selected that had not had been subject the first test purchase exercise in 2016. 4 of the premises had closed for the evening and as a result 4 premises were tested.

All sunbed premises tested refused to sell a sunbed session to the child and therefore represented a 100% compliance rate on this occasion.

### **Discussion**

This was the second test purchase exercise of sunbeds within the Borough. It is reassuring that a high compliance rate is being maintained which can be attributed to the diligence shown by sunbed premises owners in applying the legislation, working closely with Environmental Health Officers and the ongoing commitment shown by Council in this education and enforcement programme.
