5.1 Ref 197/16 – 2 Main Street, Portrush

There was one request to purchase/lease Council land for the Sub-Committee to consider.

The following factors should be taken into account when considering the request.

- Right of Way issues
- Setting precedent
- Impact on Council's strategy
- Valuation
- Long term impact on Council's asset
- Legal implications.

The Sub-Committee considered a report, previously circulated regarding a request to purchase/lease land at Main Street, Portrush.

The proposal is a cantilever section of a building which overhangs Council's land. A photograph was circulated showing the architect's impression of the proposed building including the cantilever section of the building.

In addition, to allow the building work to commence, a section of an existing hedge needs to be removed and permission is sought to do this. Planting would be restored on completion of the building. A small area at this side of the building is required for bin storage which would be screened off and sited to comply with Council's requirements.

The options for the Sub Committee to consider are:

- a) Dispose of the land
- b) Agree a lease with the property owner

Both options would be subject to completion of contractual and legal considerations, obtaining a valuation and Councils' reasonable legal costs being discharged by the leasee.

Recommendation- Sub-Committee is asked to consider the information presented, and make recommendation in principle to the Corporate Policy and Resources Committee.

A discussion took place on previous decision of Council to refuse requests to lease or sell land to the rear of properties at Main Street, Portrush.

The Sub-Committee considered a report previously circulated relating to a tenancy at Roe Valley Arts and Cultural Centre.

The tenant has requested Council's permission to place some "temporary street furniture" outside the premises.

The area at the front window of the premises measures 16 feet long and extends out by 20 feet and it is within this area the tenant requires a section to place the furniture.

The temporary street furniture will consist of 3 or 4 wooden bench and table sets. A parasol would be placed in the centre of the furniture to provide coverage – the base of which could be either a moveable granite base or a permanent base, however, the tenant has expressed a preference for a permanent base fixed to the ground. In addition, in order to secure the furniture overnight the tenant is requesting permission to erect a low wooden pitched fence around the entire structure

This request falls outside the "Street Trading and Pavement Café" legislation as the Unit is on Council owned land.

The current lease provides provision for exterior awnings, tables and chairs.

It is recommended - that the Land and Property Sub Committee consider the request to grant permission to the tenant to place the temporary street furniture and erect a low wooden pitched fence in front of the premises in accordance with the terms of the lease at Para 4.1.7. The permission will form a daily licence only and shall be revocable at any time by the Landlord should other events, activities, or circumstances require all the available space.

Approval is subject to Council's legal costs being discharged by the tenant.

The Development Management & Enforcement Manager confirmed that Planning Permission would be required for any permanent structure.

Council Solicitor provided advice in terms of the lease and insurance responsibilities, and the Director also provided information on the impact of a permanent structure on the area, and in relation to the lease, and also that cognisance is taken on the guidance around the enclosures of Pavement cafes.
