Full Planning

Update

Two further letters of support has been received.

One letter is from a business owner in the town centre, the main point covered in the letter is as follows: “in the current economic climate all businesses in the town should support any new ventures that choose to come to Ballymoney, as these can only enhance the footfall...and that we need to encourage the continuing growth of Ballymoney.”

The second letter is sent on behalf of a number of traders (16 Traders) all within Ballymoney town centre. They support the application and state that new businesses coming to the Town will help increase its economic growth and benefit all. With creation of new jobs and increased footfall this can only bolster Ballymoney as a shopping destination.

The letters received further support the recommendation as set out in the Committee Report.
