

# **Addendum**

## **LA01/2016/0623/RM**

### **Update**

An amended plan was received, 25<sup>th</sup> April 2017. The plan proposes to move the access to the development by 2 metres to avoid an existing electricity substation. The Agent has advised that the required visibility splays are still achievable. However, this amended drawing will require further consultation with Transport NI.

Recommend that the Committee agrees with the recommendation made in the Planning Committee Report to approve the reserved matters consent, subject to the agreement of Transport NI on the new access arrangements.
