

Addendum

LA01/2017/0889/F

Full Planning

Update

A substantive response was received from Loughs Agency to advise that they have no objection subject to the following additional informatives:

10. The applicant should demonstrate best environmental practice when working close to watercourses. The potential for deleterious matter to enter a watercourse is of primary concern. Impacts on the aquatic environment such as a decrease in water quality can cause a significant impact upon various life history stages of fish species.

11. The applicant should also be aware that it is an offence under section 41 of the Foyle Fisheries Act (1952) to cause pollution which is detrimental to fisheries interests.

Recommendation

That the Committee notes the content of this addendum and agrees with the recommendation to approve as set out in paragraph 9.1 of the Planning Committee Report.
