

<b>Capital Asset Realisation Team</b>	<b>20/09/2016</b>
<b>Corporate, Policy and Resources Committee – For information</b>	

<b>Linkage to Council Strategy (2015-19)</b>	
<b>Strategic Theme</b>	Innovation and Transformation
<b>Outcome</b>	The Council will continuously examine and introduce ways to provide services in more accessible and efficient ways
<b>Lead Officer</b>	Moira Quinn – Director of Performance
<b>Cost: (If applicable)</b>	Self-funding

### 1.1 Background

Further to the recommendation of this Committee and the decision of Council at its September 2015 meeting, Causeway Coast and Glens Borough Council has established a Capital Assets Realisation Team (CART) tasked with assessing the viability of assets held by Council.

### 1.2 Detail

The Terms of Reference for the CART officer team have now been developed from the decision of Council in September 2015 and are attached to this report for Members information. In addition, the asset registers of the legacy Councils have now been consolidated into a central asset register and a copy of the register, extending to 693 individual buildings and areas of land, is also attached for Members information. Work on identification of potentially surplus land and property on the central asset register is ongoing and a Members Workshop to present the detail of the process together with the progress that has been made to date has been arranged for 7pm on Thursday 6<sup>th</sup> October 2016.

Members are asked to note the content of this report and a further report will be brought to Members for Decision subsequent to the Members Workshop.

# Capital Assets Realisation Team – Terms of Reference

Causeway Coast and Glens Borough Council

## Purpose

To enable Council to consolidate and rationalise its land and property portfolio.

## Rationale

Sale of redundant land and property brings the following benefits;

- Capital value of sale – this capital can be used to pay for capital projects that Council needs or to reduce the current level of Council borrowing (or a combination of both).
- Reduced revenue costs – disposal of redundant assets reduces Council's annual revenue budget by removing unnecessary maintenance, heat, light, power, insurance and staff time costs.
- Increased sustainability of facilities – disposal of unused property helps to increase the sustainability of current facilities.
- Regeneration benefits – making unused land and property available to the open market allows the private sector to bring them back into productive use.

## Terms of Reference

The following steps are required to enable Council to consolidate and rationalise its land and property portfolio to achieve the benefits outlined;

- Consolidation of the asset registers of the four legacy Councils to understand the full extent of land and property in Councils ownership; this work is well underway in any case to facilitate other areas of the convergence process.
- Identification of all currently unused and redundant land and property on the consolidated asset register.
- Adoption of a presumption in favour of disposal of unused and redundant land and property unless there is a sound business case for its retention.
- Identification of the optimum disposal route for potential saleable assets. For example issues like straight sale, rental and lease or royalty arrangements have to be considered as well as options to add value by sales with planning permission, land assembly options, development briefs and the optimum timing of disposals.
- As work progresses, periodic presentation of the results to Members for decision in terms of what can be disposed of and what Members wish to be retained.
- Once Members have identified each piece of land or property that can be disposed of, transaction and closure of the disposal at best value to Council.
- Many parts of the Council area have multiple Council owned and other government buildings in close proximity to each other and potential exists through initiating service reviews and exploring partnership working opportunities to identify further assets for disposal in such circumstances.

## Meetings

Officer team meetings will be called quarterly and more frequently ad-hoc as required to meet the needs of the work. As with Capital Programme, a minimum of two Member workshops will be held each year and reports for decision on any potential sales will be brought to Council through Corporate Policy and Resource Committee as necessary.

## Membership

DCS (Moira Quinn – Chair), DLD, DES, HOS's, JG (Project Manager), Alan McVicker (Strategic Advisor), SIB and External Property Specialists (as required), Mary Kerr (Secretariat)

## Budget

An initial enabling budget of £50k is in place but after the first disposals the Team will be self-financing.
