Dear Dr Boomer,

Re: Mid Ulster Preferred Options Paper (POP): Council Consultation.

Further to the publication of the Mid Ulster Preferred Options Paper on 7th November 2016 and letter to Council dated 15th November 2016, I wish to make the following comments on behalf of Council:

Council acknowledges the very detailed nature of the POP, and its purpose to stimulate focussed debate on a wide range of planning issues affecting the district.

The spatial profile of the district is helpful in setting the scene in terms of the three strands contained within the Sustainability Appraisal; namely; social, economic; and environmental. The document emphasises the rural nature of the District as well as the opportunities and constraints this creates.

References to the Mid Ulster Community Plan highlights its importance also and the statutory link between both documents.

The POP sets out relevant regional policy and details Council's strategic approach and options, including its 'preferred option', for the development of the district up to 2030.

The proposed Retail Hierarchy and designation of Primary Retail Cores are noted, as is the proposed designation of Rural Industrial Policy Areas and Special Countryside Areas.

The proposed Mineral Reserve Policy Areas; Areas of Constraint on Wind Turbines & High Structures (to include overhead cables and telecommunications); Tourism Conservation Zones (particularly within The Sperrins AONB) are also of interest, as these occur along our common district boundary.

The option to prepare a list of non-designated heritage assets (known as 'local listings') is noted, and it is agreed that the method regarding the selection criteria for the identification of such assets needs to be clear and based on a robust evidence base.

The option to adopt no policy in relation to development in proximity to reservoirs until such times as the required information is made available to the public is also noted.

As an adjoining council, we acknowledge your strategy for the protection of your natural heritage which includes taking account of the implications of your proposed land use zonings, locations for development and settlement limits on the natural features contained within or adjoining your plan area.

Council would be keen to work with Mid Ulster Council in relation to our common areas of interest, including those listed above.

Please do not hesitate to contact me should you wish to discuss further.

Yours faithfully,

Denise Dickson
Head of Planning
